How to Handle Shills 101 (By Aussie Anon)

4chan X is a script that adds various features to anonymous imageboards. It was originally developed for 4chan but has no affiliation with it. Head over to https://www.4chan-x.net/ and install it! Make the shills work extra hard for their shekels!

>Gore Filter
>copy paste the contents into your Image MD5 section of your 4chanX filter!
https://pastebin.com/xYrdynj6

>Memeflag Filter
>copy paste the following into the FLAG section of your 4chanX filter to filter all memeflags and anyone replying to memeflags!
https://pastebin.com/SZSpcyUF

Remember
>shills are paid by the post and by the (You)
>starving them of (You)s directly affects their personal income!
Make sure to remind shills that they are fat nerd virgins who work for Langley for slave wages, but never give them a (You)!
Stay comfy, Kings!
